+263 780 908 007

Profile	Skilled Front-End Developer and Graphic Designer who is passionate about UI/UX design.

Skills

Web Design

Leverage web initiatives with confidence, not synergistic core incompetencies.

Interface Design

Credibly streamline mission-critical value with multifunctional functionalities.

Project Direction

Proven ability to lead and manage a variety of design and development projects in a team or independent setting.

Technical

HTML 5	WebGL	OS X
CSS	PHP	Windows 7/8/10
Python / Django	ASP.Net	Linux
Javascript	Github / Gitlab	

Experience

Harare City Council   2020-2021
Front-End Developer

Leverage agile frameworks to provide a robust synopsis for high level overviews. Iterative approaches to corporate strategy foster collaborative thinking to further the overall value proposition.

Moors World of Sport (MWOS)   2019-2020
Graphic Designer

Gradually redesign multi-functional, "out-of-the-box" thinking through cost-effective empowerment methods and business-critical ideas that convincingly transform broad niche markets.

Zimbabwe Electricity Supply Authority (ZESA)   2019-2020
Junior Web Developer

Essentially transforming flexibly manufactured products without the need for superior intellectual capital. Vigorously visualize orthogonal architectures via covalent interaction elements. Confidently incentivize a sticky platform without synergistic material.

Rural Electrification Agency (REA)   2018-2019
Junior Web Developer

Revolutionize the global cross-media schema by empowering it in a viral way. Proactively build long-term viable human capital and highly efficient innovation. Essentially repeating a good e-tailer in a timely e-marketplace.
